

Elective – Mandarin 2 (Foundation)

Time: 5 x 35 minutes per week

Course Description:

At the beginning of the program, Grade 2 Foundation students are introduced to the proper way of pronouncing the Chinese Roman spelling known as Hanyu Pinyin and the four tones. Next, they are brought to experience and understand the pictorial and symbolic world of Chinese character (Hanzi). As they learn the form of the basic Hanzi in relation to the original form of the meaning, they also practise to trace and write the basic strokes and Hanzi in the appropriate steps. Pinyin and tones recognition are trained along with the process as they gain knowledge that different tones will mean different meanings and different Hanzi. In Semester 2, with the strong foundation that has been built during Semester 1, students will learn about practical topics through reading, conversation, role-play, sentence building, story writing and oral presentation. The knowledge on basic Hanzi will help them to step further to radical and its role as a component that determines the meaning of a Hanzi as a whole.
