

Elective – Mandarin 5 (Advanced)

Time: 5 x 35 minutes per week

Course Description:

In this level, students are required to master the vocabulary related to the topics listed below orally and in written. The terms have gotten more detailed at this stage, i.e. family member and clothes. They learn to develop a story in a good sequence and logic using various vocabulary and implement correct sentence pattern in their composition. Oral presentations and questions answer sessions are conducted afterwards to train them to be able to convey their story through understanding. In listening and reading, students should be able to not only translating the message literally, but also to interpret it. They should be able to recognise and fix errors in character, word and sentence pattern used as they are strengthening their language sense.
