

Mandarin Nursery

Time: 2 x 35 minutes per week

Course Description:

By introducing Mandarin language at early age, we try to make our kindergarten students familiar to this second worldwide language, catch their interest and develop their language talent. Nursery students will be introduced to common vocabulary related to the topics below. They will develop their listening and speaking skill by understanding simple oral messages of the topics and respond appropriately to the messages. Activities such as singing, reciting poems, etc., will be their main ways of practising the correct pronunciation and tones.
