

Mathematical Development K-B

Teacher: Ms Maja

Time: 5 x 35 minutes per week

Course Description:

The Kindergarten B Mathematics is designed to form the foundation level for Primary school Mathematics. Mathematical concepts are systematically introduced and reinforced using the Concrete – Pictorial – Abstract approach. The approach enables students to encounter Mathematics in a meaningful way through concrete activities before progressing to pictorial and abstract representations.

Resources:

Rainbow Maths Student Book 3 and 4
Rainbow Maths Activity Book 3 and 4

Additional resources:

Prerequisites: Successfully completed Kindergarten B requirements
